The date the fund started	23 July 2015

What are the risks of investing?

Risk indicator for the Pathfinder Global Property Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the 5-year period from 1 January 2016 to 31 December 2020. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

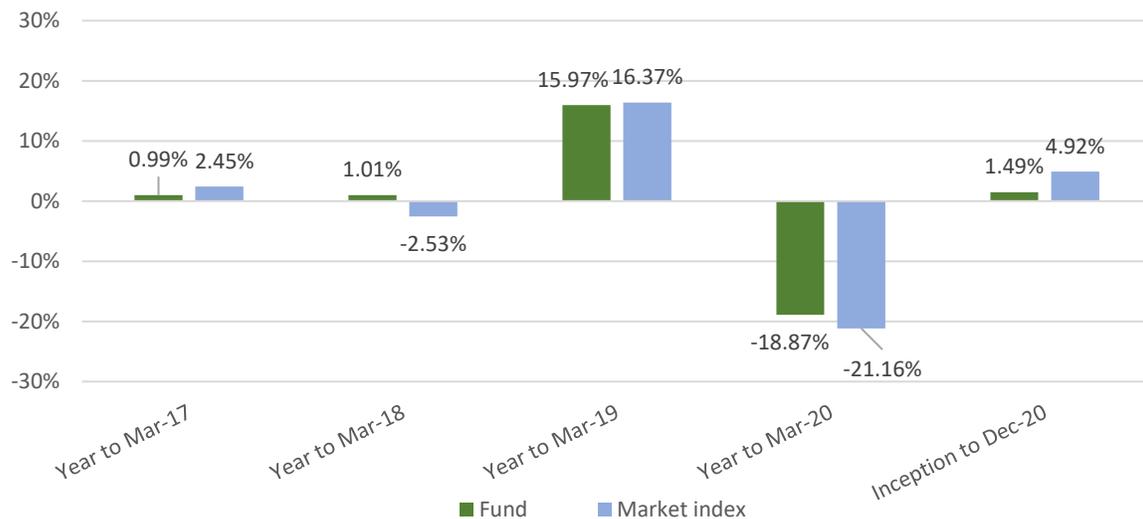

See the Product Disclosure Statement (**PDS**) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past Year
Annual return (after deductions for charges and tax)	1.66%	-15.29%
Annual return (after deductions for charges but before tax)	1.95%	-16.83%
Market index annual return (reflects no deductions for charges and tax)	4.55%	-9.54%

The market index annual return is based on the FTSE EPRA/NAREIT Global Real Estate Index (75% hedged to NZ dollars), see Note 1 below. Additional information about the index is available on the offer register at www.business.govt.nz/disclose (search Offers, using Offer OFR10780, Documents, Other Material Information).

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2020.

Important: this does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Pathfinder Global Property Fund are charged fund charges. In the year to 31 March 2020 these were:

	% of net asset value
Total fund charges*	1.00%
Which are made up of:	
Total management and administration charges	
Including:	
Manager basic fee	1.00%
Other management and administration expenses	0.00%

*All amounts exclude any applicable GST

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees on the offer register at www.business.govt.nz/disclose for more information.

Example of how this applies to an investor

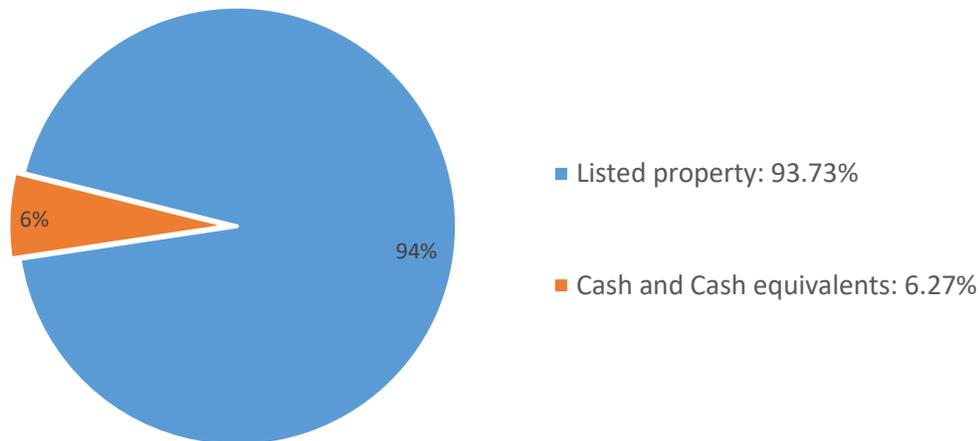

Small differences in fees and charges can have a big impact on your investment over the long term.

Angela had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Angela incurred a loss after fund charges were deducted of \$1,683 (that is 16.83% of her initial \$10,000). Angela did not pay any other charges. This gives Angela a total loss after tax of \$1,529 for the year.

Notes

- 1) **Market Index:** We have changed market index for the Global Property Fund from the Morningstar US Real Estate Sector Index to FTSE EPRA/NAREIT Global Real Estate Index, because the new index has global coverage and is more representative of the Global Property Fund which also invests globally. This is not a material change as the two indexes' returns are broadly similar.

- 2) **'Cash at Bank'**: The fund uses foreign currency cash accounts which can be both positive and negative balances. If all cash positions are netted, the overall cash holding in NZD is 5.93% of the fund net assets.

- 3) **Key Personnel**: James Caughey, Nish Vyas, and Kent Fraser have not been named in a previous fund update.
